

Prabhat Kumar Brief Bio:

Prabhat Kumar is a technology executive, advisor, and business leader with more than 40 years of experience driving innovation, strategic growth, and digital transformation. He currently serves as an advisor to AI startups within the MARL Accelerator ecosystem, including WAN-AI and Nife.io.

During leadership roles at AT&T Bell Labs, Liberty Global and Verizon, Prabhat built global partnerships, launched enterprise technology solutions, and established international joint ventures across Asia and South America. His expertise includes artificial intelligence, private 5G, edge computing, cloud platforms, and Industry 4.0 transformation.

A graduate of IIT Roorkee and IIT Kharagpur, and an MBA from the University of Chicago Booth School of Business, Prabhat brings a unique combination of executive leadership, technical depth, and business strategy to help organizations transform, scale, and create lasting value.
